Christopher Whitehead Language College and Sixth Form: 16-19 Tuition Fund

Christopher Whitehead Language College and Sixth Form has been awarded £2,792 under the Education & Skills Funding Agency's 16-19 Tuition Fund. This money is ring fenced for supporting students who have not achieved a grade 4 or above in English and/or maths in the current cohort.

This money is being used to provide additional small group and 1:1 support for students working towards a resit examination in English and/or Mathematics in the academic year 2020-21, specifically:

- Regular taught lessons in Mathematics and/or English
- Online work via Google Classroom during extended periods of school closure
- Teaching of subject content required as a result of disruption caused by the COVID-19 pandemic to the academic year 2019-20
- Increased examination preparation in the lead up to resit examinations
- Additional mentoring and support, during extended periods of school closure, linked to the vocational courses undertaken by these students.

Through these measures, we are supporting students to make progress towards their English and/ or Mathematics GCSE qualifications.
