

Pearson BTEC Level 3 National in Health and Social Care

Board and Specification: Pearson

Staff : Mrs J.Welfoot (j.welfoot@cwlc.email)

Miss H.Hughes: (k.hughes@cwlc.email)

This course is available to study alongside two other qualifications, or as a standalone double option, combined with work experience, for those wishing to take a more vocational pathway.

Subject specific entry requirements*:

5 GCSE'S of 5 and above including;

- Grade 5 or above GCSE Mathematics
- Grade 5 or above in GCSE English Language
- Grade 5 or above in GCSE Science

*Students who do not meet these entry requirements will be considered on the strength of their other subjects, including Health and Social Care GCSE, BTEC or Cambridge National.

What skills are required of students?

- The ability to follow instructions and to meet deadlines.
- The ability to study independently and seek support if unsure.
- The ability to organize your time and work effectively in and out of the classroom.
- The ability to research information and reference sources.
- The ability analyse data and reach conclusions.
- The maturity to deal with both challenging and sensitive topic.
- The understanding that if you miss lessons it is your responsibility to catch up.
- To actively participate in class discussions and practical work.
- To be polite and well-mannered when interacting with care practitioners and service users.

Course Details

The BTEC in Health and Social Care allows students to develop their skills and knowledge in preparation for further study or the workplace. Students apply their skills and knowledge to offer appropriate care and support and build positive relationships to meet the needs of those they are working with.

The course is refreshing, exciting and the content is up to date. Making it engaging, fit for purpose and suitable for the needs of Health and Social Care Students and professionals of the future.

The course offers a wide range of centre assessed units with practical and wider project-based assessment opportunities, as well as examined units in Human Lifespan and Development, Working in Health and Social Care and Enquires into Current Research in Health and Social Care as well as Health and Safety and Safeguarding. This has resulted in focused qualifications which work alongside other vocational qualifications or an A level (s). This is will be two years of study.

The BTEC in Health and Social Care has been developed to meet the changing needs of the sector and prepare students for the challenges they will face in Higher Education or employment. It has been designed in collaboration with experts spanning the breadth of the sector, the BTEC in Health and Social Care focuses on the skills, knowledge and understanding that today's universities and employers demand.

Students will practically apply their skills and knowledge in preparation for further study or the workplace. Students will develop professional and personal skills through interaction with people who either work in the sector or require care or support, as well as theoretical knowledge and understanding to underpin their skills. This will allow them to offer specific, person-centred care and support and build positive relationships with the people they are working with, so that their needs and requirements are met whilst they maintain control of their own care and support.

Students will consider the real impacts to people living with conditions or illnesses such as the social, financial and psychological impacts, not just the signs, symptoms and treatment of faceless conditions or illnesses. Students will also learn about the legislation and guidance supporting Health and Social Care, so that they can ensure the people they are working with are not only able to access all the care and support they are entitled to, but are also able to protect themselves from any harm or abuse whilst at work.

The BTEC National provides a strong base for progression to university, apprenticeships or work and are recognised for UCAS tariff points*
